

## Product data sheet

|   |  |
|---|--|
| <b>Product number</b>                   | 061013E02  |
| <b>Antibody specificity</b>             | Ras-related protein Rab-6B (RAB6B)   |
| <b>Species reactivity</b>               | Mouse  |
| <b>UniProt/GenelD</b>                   | P61294/270192  |
| <b>Clone number</b>                     | KT79   |
| <b>Immunogen</b>                        | Recombinant mouse RAB6B  |
| <b>Antibody isotype</b>                 | Rat IgG2b  |
| <b>Antibody form</b>                    | Intact antibody  |
| <b>Concentration</b>                    | 1 mg/ml in PBS containing 0.09% sodium azide as a preservative   |
| <b>Cross-reactivity</b>                 | The antibody does not cross-react with RAB6A   |
| <b>Applications</b>                     | Primary antibody for Western blotting and immunofluorescent staining.<br><br>These are applications that have been tested. It does not mean that the antibody cannot be used for other applications. |
| <b>Suggested working concentrations</b> | Western blotting: 1/500 – 1/10000<br>Immunofluorescent staining: 1/100 – 1/1000<br><br>Optimal concentrations should be determined by the end user   |
| <b>Preparation</b>                      | IgG is purified from culture supernatants using a Protein G column   |
| <b>Store</b>                            | 4 °C for 1 month, -20 °C or -80°C in aliquots. Avoid repeated freeze/thaw cycles   |
| <b>Safety information</b>               | This product contains sodium azide which is hazardous  |
