

## **Product data sheet**

Product number 068805H01H

Antibody specificity lgG1, lgG2, lgG3, lgG4

Species reactivity Human

Clone number KT132

Immunogen Human IgG

Antibody isotype Mouse IgG1

Antibody form Intact antibody labelled with horseradish peroxidase

**Concentration** 1 mg/ml in PBS containing 0.01% thimerosal as a preservative

Cross-reactivity Not cross-react with human IgA, IgE and IgM

**Applications** ELISA and detection antibody for sandwich ELISA

These are applications that have been tested. It does not mean that the

antibody cannot be used for other applications

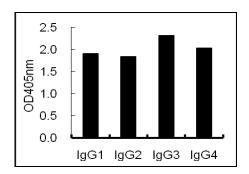

Figure 1. ELISA using plates coated with human IgG.

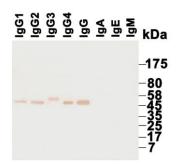

Figure 2. Western blotting using various purified immunoglobulins.

Suggested working ELISA: 1/1000

**concentrations** Detection antibody: 1/1000

Western blotting: 1/500-1/10000

Optimal concentrations should be determined by the end user

**Preparation** IgG is purified through a Protein A column and labelled with horseradish

peroxidase

Store 4 °C for 1 month, -20 °C or -80°C in aliquots. Avoid repeated freeze/thaw

cycles

**Safety information** This product contains thimerosal which is hazardous
