

Product data sheet

Product number	161608B08H
Antibody specificity	Ig mu chain C region (IgM)
Species reactivity	Rat
Clone number	KT103
Immunogen	Rat IgM
Antibody isotype	Mouse IgG1
Antibody form	Intact antibody labelled with horseradish peroxidase in PBS
Concentration	1 mg/ml in PBS containing 0.01% thimerosal as a preservative
Cross-reactivity	Not cross-react with rat, rabbit and human IgG, mouse IgG and IgM
Applications	Detection antibody for ELISA, Western blotting and antibody isotyping

These are applications that have been tested. It does not mean that the antibody cannot be used for other applications

Figure 1. ELISA for cross-reactivity of 161608B08H to various immunoglobulins

Figure 2. Western blotting to rat immunoglobulins under reducing condition detected by 161608B08H.

Suggested working concentrations	ELISA: 1/2000 Western blotting: 1/500 – 1/10000
	Optimal concentrations should be determined by the end user
Preparation	IgG is purified through a Protein A column and labelled with horseradish peroxidase
Store	4 °C for 1 month, -20 °C or -80°C in aliquots. Avoid repeated freeze/thaw cycles
Safety information	This product contains thimerosal which is hazardous
